Key Insights

- Revenue is trending up: the second half of the period grew +15.4% versus the first half, reaching \$378.2K.
- The store generated \$186.7K in net profit after \$112.9K of ad spend, at a 42.4% gross margin and a blended ROAS of 6.3x.
- Email is the most efficient paid channel at 7.8x ROAS -- the strongest candidate to scale budget into.
- Meta Ads is underperforming at 2.6x ROAS, below the 3.9x paid-channel average -- a candidate for budget reallocation toward higher-return channels.
- Google Ads is the largest revenue driver, contributing 26.6% of total sales (\$188.0K).
- Electronics leads category revenue with \$316.2K (44.8% of sales).
- Beauty is the most profitable category at 61.8% gross margin -- promoting it more aggressively could lift blended profitability.
- US is the top market at 39.3% of revenue; the remaining 5 markets offer room for geographic diversification.
- The customer mix is balanced at 37.8% new customers, a healthy blend of acquisition and retention.
- Average order value declined 3.7% half-over-half, with the period average at \$168.15 -- pressuring margin.
